INNOVATION

Construction of the “Mountain Resources” education and display center in Makhachkala

PROJECT COST: 2 800,0 mln RUB

PROJECT DESCRIPTION:

The project stipulates the development of scientific and innovation activity cluster which allows to create innovation products using the resources of several research institutes, and the creation of a pharmacological cluster producing extracted medicinal products of medicinal plants and biologically active additives in compliance with world GMP standards. The project stipulates a botanical garden construction as well.

PROJECT INITIATOR:

“Innovatsionno-tekhnologichesky tsentr “Gornye Resursy” (“Mountain Resources” Innovation and Technical Centre”), Ltd.

LOCATION:

75 Yagarskogo St., Makhachkala, Republic of Dagestan.

MATURITY LEVEL:

- A business plan is prepared.
- A 2,62-hectare plot of land is available.
- Preparation of the detailed projects of the first construction stage is completed.
- Positive results of the State Appraisal are received for the first stage of design works.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 252 of 22 July 2011, the project has the status of a priority project of the Republic of Dagestan.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 122 of 22 April 2011, the project is supported by state financing of the second construction stage documents preparation.

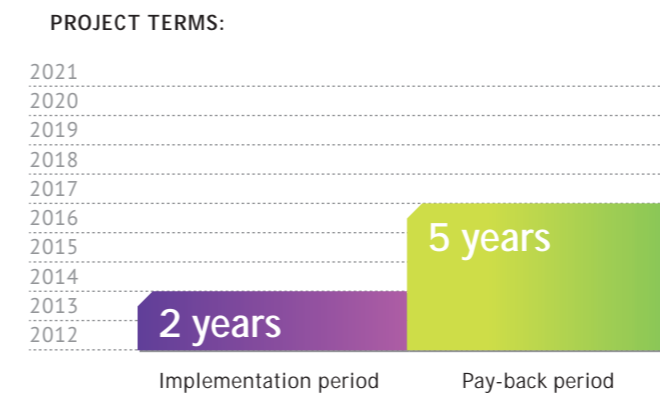

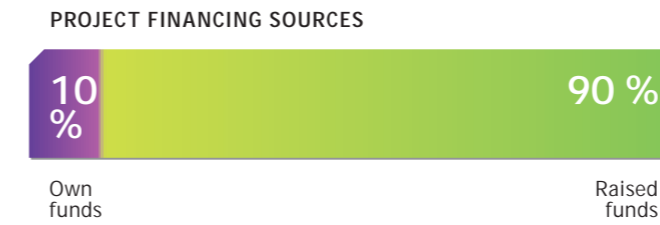

CONTACT DETAILS:

75 Yagarskogo St., 367002, Makhachkala, Republic of Dagestan, Russia

Construction of an IT-park of complete “idea-series” cycle type

PROJECT COST: 2 150,0 mln RUB

PROJECT DESCRIPTION:

The project stipulates the creation of an IT-park of complete “idea-series” cycle type allowing each tested and approved idea to be implemented and forwarded to series production.

PROJECT INITIATOR:

“NPK Russkaya radioelektronika” (“Russian radioelectronics” Research and Production Complex”) Open Joint Stock Company.

LOCATION:

Makhachkala, Republic of Dagestan.

MATURITY LEVEL:

- The first stage of the “Electronics” (“Elektronika”) IT-park construction is completed.
- The “Mechanics” (“Mekhanika”) IT-park construction project is prepared.
- The “Electronics” (“Elektronika”) IT-park extension project is prepared.
- A business plan is prepared.

Development of high-efficiency solar cells and modules production

PROJECT COST: 720,0 mln RUB

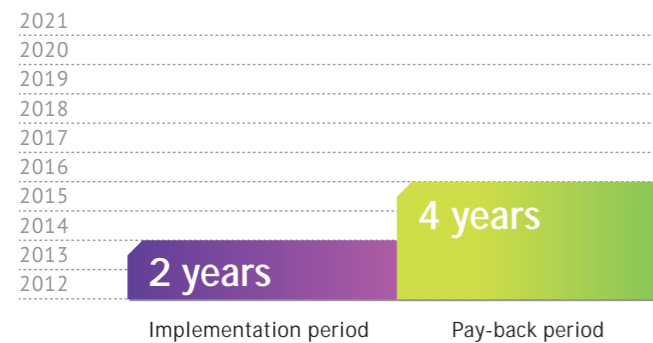

PROJECT FINANCING SOURCES

20 % 80 %

Own funds

Raised funds

PROJECT TERMS:

PROJECT DESCRIPTION:

The project stipulates the organization of the volume production of solar cells with wafers, with the dimensions of 125 mm x 125 mm and 156 mm x 156 mm, of high 20 percent performance (average performance in the world market is 14–17%).

PROJECT INITIATOR:

"Dagkermny", Ltd.

LOCATION:

3 Stroitel'naya St., Derbent, Republic of Dagestan.

MATURITY LEVEL:

- A business plan is prepared.
- Production sites are prepared.
- A solar modules assembly line using commercial elements is launched.

CONTACT DETAILS:

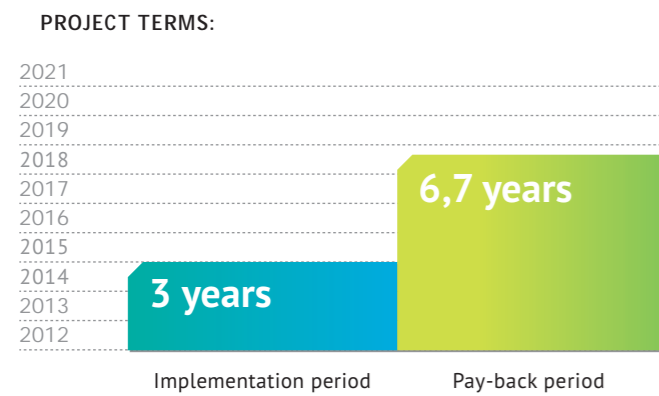

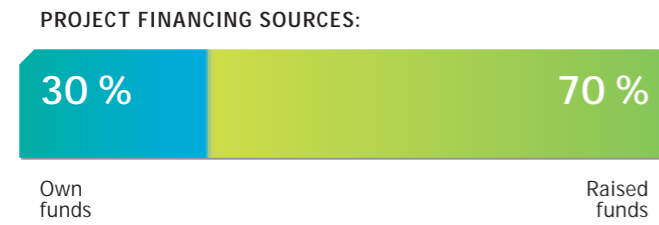

3 Stroitel'naya St., 368603, Derbent,
Republic of Dagestan, Russia

INDUSTRY AND TRANSPORT

Development of float glass production

PROJECT COST: 10 512,0 mln RUB

PROJECT DESCRIPTION:

The project stipulates the construction of a float glass plant with a daily capacity of 600 tons (219 thousand tons per year). It is planned to produce high-efficiency low-emissivity glass. The following products are to be produced:

- 1) clear glass;
- 2) tinted glass;
- 3) reflective glass.

PROJECT INITIATOR:

"Kaspiysky Zavod Listovogo Stekla" ("Kaspiysky Flat Glass Plant") Open Joint Stock Company

LOCATION:

Tyube village, Kumtorkalinsky district, Republic of Dagestan

MATURITY LEVEL:

- A business plan is prepared.
- Construction documents are prepared.
- Contracts with such glass production equipment producers as the HORN Glass Industries AG, the Van Betra Projekt GmbH are concluded.
- A credit line in the "Vnesheconombank" is opened.
- A 50-hectare plot of land is available in the Kumtorkalinsky district, Republic of Dagestan.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 436 of 26 November 2010, the project has the status of a priority project of the Republic of Dagestan.
- Principal facilities construction is started.

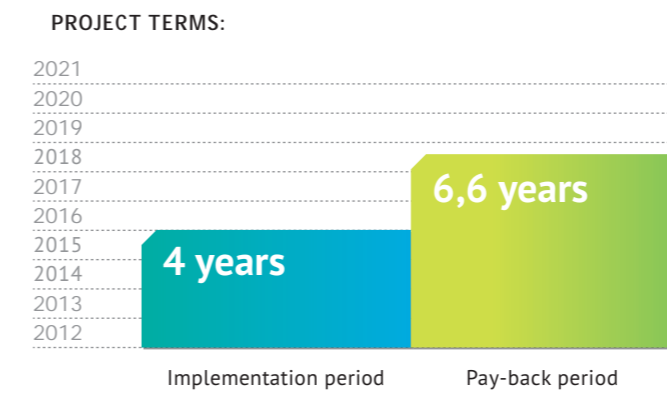

CONTACT DETAILS:

Development of nitric and sulfuric acid, and high analysis fertilizer production onsite the "Dagfos" OJSC – II stage

PROJECT COST: 6 215,476 mln RUB

PROJECT DESCRIPTION:

The project stipulates the implementation of the second stage of complex re-equipment of the "Dagfos" OJSC that is aimed to create a plant producing the entire spectrum of basic mineral fertilizers for the needs of the southern regions of the Russian Federation.

PROJECT INITIATOR:

"Dagfos" Open Joint Stock Company

LOCATION:

3 I. Shamilya Av. (Prospekt), Kizilyurt, Republic of Dagestan

MATURITY LEVEL:

- A business plan is prepared.
- Construction documents are being prepared.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 492 of 30 December 2010, the project has the status of a priority project of the Republic of Dagestan.
- In compliance with the Regulation of the RF Government No. 299-r of 3 March 2012 the RF loan guarantee is granted for the loan of the "Dagfos" Open Joint Stock Company in 2012.
- The NEO Centre Consulting Group completed the audit for the "Dagfos" OJSC, a financial model and a business plan are updated.

Construction of an intra-zone telephone communications central using NGN technologies and optical fiber links

PROJECT COST: 1 993,85 mln RUB

PROJECT DESCRIPTION:

The project stipulates the construction of an intra-zone telephone communications central using NGN technologies and optical fiber links. It will allow to use broadband Internet, IP television, IP telephony to rent communication channels and to create data bases using optical fiber links.

PROJECT INITIATOR:

"Elektrosvyaz" Open Joint Stock Compan

LOCATION:

2v Prospekt Imama Shamilya, 367026, Makhachkala, Republic of Dagestan

MATURITY LEVEL:

- A business plan is prepared.
- A project feasibility study, construction documents are prepared.
- State appraisal conclusion is received.
- Laying of 2 200 km of optical fiber links is finished.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 252 of 22 July 2011, the project has the status of a priority project of the Republic of Dagestan.

Construction of the “Anzhi-Steklo” glass container manufacturing plant

PROJECT COST: 6 603,0 mln RUB

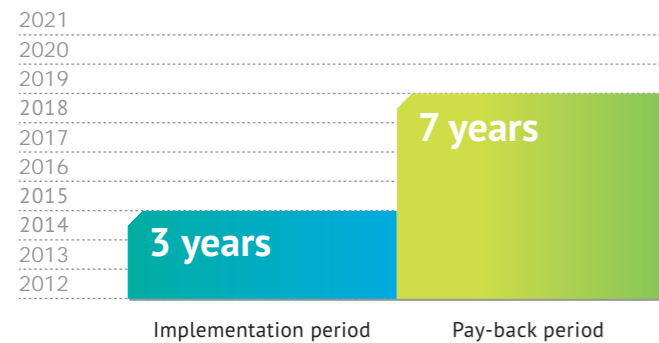

PROJECT FINANCING SOURCES:

Own funds

Raised funds

PROJECT TERMS:

LOCATION:

Temirgoe village, Kumtorkalinsky district, Republic of Dagestan

MATURITY LEVEL:

- A business plan and construction documents are prepared.
- A land plot (43 hectares) in area is available.
- State appraisal conclusion is received for all capital structures.
- Engineering infrastructure and communications development financed by the RF and the RD Investment Funds is completed.
- A glass-container plant construction and assembly works are 25 percent completed.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 168 of 1 June 2011, the project has the status of a priority project of the Republic of Dagestan.
- Contracts are concluded with equipment and construction units suppliers, advances are paid.
- Refractory materials for a glass melter are delivered to the construction site.
- Own funds invested into the project are 1 350 million Russian roubles.
- A patent No. 2392068 of 20 June 2012 is received for quartz sand preparation.

CONTACT DETAILS:

93a Yagarskogo St., 367000, Makhachkala,
Republic of Dagestan, Russia
Tel.: +7 (8722) 63 40 49
Tel.: +7 (8722) 63 22 46
E-mail: magistral-office@mail.ru

PROJECT DESCRIPTION:

The project stipulates the construction of a plant producing high-quality case-hardened glass containers, with an annual capacity of 720 mln standard units. The plant is to launch production of glass containers of three colors: green, brown and white – for alcoholic and non-alcoholic beverages, mineral water, juice, effervescent beverages, wine, champagne, cognac bottling and packaging materials for fruits and vegetables conservation of any dimensions and design according to the needs of an ordering party.

PROJECT INITIATOR:

“Magistral” Open Joint Stock Company

Development of road, building machinery and municipal and aerodrome engineering assembly

PROJECT COST: 800,0 mln RUB

PROJECT FINANCING SOURCES:

PROJECT TERMS:

PROJECT DESCRIPTION:

The project stipulates the development of the assembly of garbage collectors, vacuum sweepers, building machinery, aerodrome engineering onsite plants in action. The installation of SILO-Citybin inground containers in the cities of the Republic of Dagestan and municipal engineering purchase are planned.

PROJECT INITIATOR:

"Road and Building Machinery Industrial Association", Ltd.

LOCATION:

Makhachkala, Republic of Dagestan

MATURITY LEVEL:

- Garbage collectors and vacuum sweepers assembly is launched.
- The investment site presented is located onsite the "Buynaksky Aggregate Plant".
- A protocol of cooperation is concluded between the Government of the Republic of Dagestan and the "Road and Building Machinery Industrial Association", Ltd.
- It is agreed to locate the implementation of municipal engineering and SILO-Citybin containers assembly on site "Avi-aagregat" OJSC.

Construction of a farm machinery manufacturing plant for winegrowing and gardening

PROJECT COST: 867,0 mln RUB

PROJECT FINANCING SOURCES:

PROJECT TERMS:

PROJECT DESCRIPTION:

According to the project it is planned to build a farm machinery manufacturing plant to produce equipment and machinery for gardening and winegrowing.

PROJECT INITIATOR:

"Selmarsh", Ltd.

LOCATION:

Makhachkala, Republic of Dagestan

MATURITY LEVEL:

- A feasibility study is completed.
- Construction documents are being prepared

CONTACT DETAILS:

Development of E.DP-45 diesel engines production

PROJECT COST: 1 288,8 mln RUB

Own funds: 22 %
Raised funds: 78 %

PROJECT DESCRIPTION:

The project stipulates the development of E.DP-45 diesel engines production with high energy, economic and ecologic performance for using in "NAMI-2338" small size vehicles, automobiles, public service and agricultural wheeled vehicles, light fishing boats, utility boats, production installations, naval and commercial shipbuilding units.

PROJECT INITIATOR:

"Dagdiesel Plant" ("Zavod Dagdizel") Open Joint Stock Company

LOCATION:

1 Lenina St., Kaspiysk, Republic of Dagestan

MATURITY LEVEL:

- Design-engineering documents are prepared.
- A business plan is prepared.
- A functioning breadboard model is available.
- Production facilities with all necessary infrastructure are available.

CONTACT DETAILS:

1 Lenina St., 368300, Kaspiysk, Republic of Dagestan, Russia

Construction of a round and shaped steel tubes producing plant

PROJECT COST: 700,0 mln RUB

Own funds: 80 %
Raised funds: 20 %

PROJECT DESCRIPTION:

The project stipulates the construction of a round and shaped steel tube producing plant with an annual capacity of 32,8 thousand tons.

PROJECT INITIATOR:

"Dagestan Metal Tube Plant"
("Dagestansky Zavod Metallicheskih Trub"), Ltd.

LOCATION:

Novy Kumukh village, Buynaksky district, Republic of Dagestan

MATURITY LEVEL:

- A business plan is prepared.
- A plot of land is available.
- A round steel tubes production line is in action.

PROJECT DESCRIPTION:

The project stipulates the construction of the KamAZ vehicles trade and service centers in several districts of the Republic of Dagestan.

PROJECT INITIATOR:

"Kaspy-K", Ltd.

LOCATION:

Makhachkala, Oil Depot area, Karabudakhkentsky, Kizlyarsky,
Derbentsky, Levashinsky districts, Republic of Dagestan

INVESTMENT SITES

Industrial production site

LOCATION:

Republic of Dagestan, Kumtorkalinsky district, Tyube village

AREA DECLARED:

1 720 000 sq m

ENGINEERING AND TRANSPORT INFRASTRUCTURE:

According to the "South of Russia 2008–2013" federal target program it is planned to create engineering infrastructure (construction of power transmission lines, an electric power station, an automobile road, a gas pipeline, a gas distributing station, water supply, waste water treatment facilities, railway construction and reconstruction).

FINANCING SOURCES:

- federal budget – 280,0 mln RUB;
- regional budget – 164,0 mln RUB.

The assimilated funds for 01.05.2012 are 444,0 mln RUB.

THE FOLLOWING WORKS ARE COMPLETED:

- 1) railway reconstruction – 1,4 km, construction of a new segment – 2,67 km;
- 2) an automobile road construction – 6,5 km;
- 3) 2 water lines (100 mm in diameter) laying for technical purposes – 3,4 km and a water pipe (200 mm in diameter) laying – 3,3 km;
- 4) sewer pipes laying – 2,85 km;
- 5) line gaspipe (219 mm in diameter) laying – 8,7 km;
- 6) set-up water supply – 1,65 km, and set-up power supply for organizing works on the investment site.

FUEL AND ENERGY COMPLEX

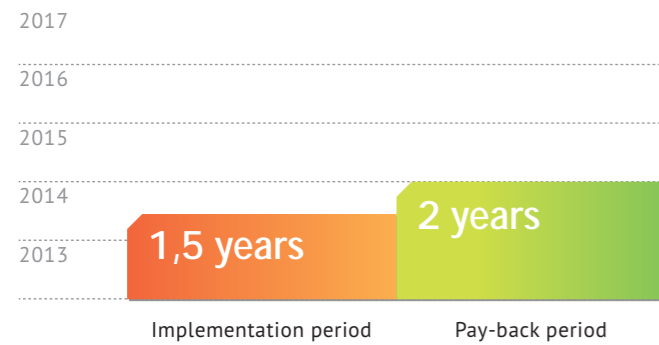

Construction and exploitation of an oil refining and storage complex

PROJECT COST: Total **7 100,0 mln RUB**
First stage **2 544,1 mln RUB**

PROJECT FINANCING SOURCES:

PROJECT TERMS:

PROJECT DESCRIPTION:

The project stipulates the construction of a cost effective oil refinery with an annual capacity of 1 million tons of oil, including facilities for oil storage with a capacity of 100 thousand tons. It is planned to produce petroleum, kerosene, diesel engines fuel, marine and burner fuel, asphaltic road oil, liquefied petroleum gas, petroleum coke.

PROJECT INITIATOR:

"Dagestanskije Novye Tekhnologii" ("Dagestan New Technologies"), Ltd.

LOCATION:

Oil Depot, Makhachkala, Republic of Dagestan.

MATURITY LEVEL:

- A business plan is prepared.
- The Order of the Government of the Republic of Dagestan No. 215-R "On Financing Construction Documents Preparation" is issued on 7 September 2011.
- Construction documents are prepared.
- A 3-hectare land plot on the territory of the "Dagneft-eprodukt" OJSC is available.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 129 of 29 April 2011, the project has the status of a priority project of the Republic of Dagestan.
- Equipment is purchased partially.

Construction of the Gotsatlinskaya Hydro Power Plant on the Avarskoje Koyusu river

PROJECT COST: **11 105,9 mln RUB**

PROJECT FINANCING SOURCES:

PROJECT TERMS:

PROJECT DESCRIPTION:

The project stipulates the construction of the Gotsatlinskaya Hydro Power Plant (HPP) on the border of the Khunzakhsy and Gergebilsy districts of the Republic of Dagestan. The planned capacity is 100 MW and the planned annual power output is 350 mln kWh.

PROJECT INITIATOR:

"Sulaksky Hidroenergetichesky Kaskad" Open Joint Stock Company

LOCATION:

Khunzakhsy district, Republic of Dagestan.

MATURITY LEVEL:

- The project implementation is held in the scope of the "South of Russia 2008-2013" Federal Targeted Program.
- A dam body filling works are in progress.
- A "slurry wall" element installation in the dam foundation is in progress.
- A tunnel and an operational waste intake portal concreting works are in progress.

- Structural steel installation works and concreting intake aspiration tunnels elbows and cones of the HPP building hydraulic units No. 1 and 2 are finished.
- Works on an outlet channel of the second construction stage are finished.
- Works on an outlet channel of the third construction stage are in progress. According to the data on 29 March 2012, the Gotsatlinskaya power plant construction is 47,4 percent complete.

Construction of a high-efficiency biological power complex at developed geothermal fields of the Northern Dagestan

PROJECT COST: 2 583,3 mln RUB

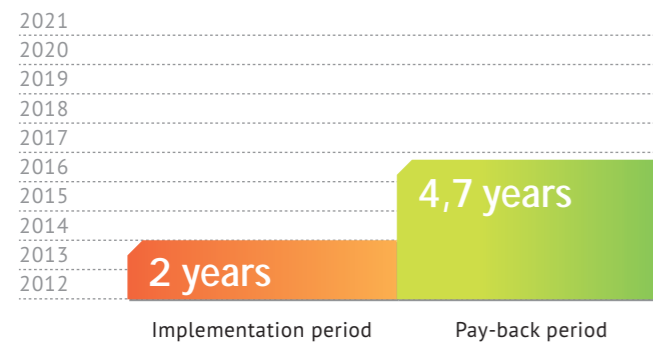

PROJECT FINANCING SOURCES:

21,7 % 78,3 %

Own funds

Raised funds

PROJECT TERMS:

AGROINDUSTRIAL COMPLEX

PROJECT DESCRIPTION:

The project stipulates the construction of a biological power complex using geothermal waters for electrical and heat power production, and the development of valuable ecologically clean food. The planned annual production capacity in kind and in value terms is as follows: electric power production – 28 mln kWh; heat power production – 216 000 Gcal; sturgeon – 250 tons; spirulina microalgae – 200 tons; black caviar – 25 tons; rathe-ripes – 1500 tons; poultry meat – 2300 tons; microalgae – 200 tons.

PROJECT INITIATOR:

“Kaspyecoservic”, Ltd. (Makhachkala, Russia),
 “Krzhizhanovsky Power Engineering Institute” Open Joint Stock Company (Moscow, Russia).

LOCATION:

Kizlyar, Makhachkala, Krasnoarmeysk, Republic of Dagestan.

MATURITY LEVEL:

- A business plan is prepared.
- 6 geothermal wells are explored.

Priority agriculture development program of the Republic of Dagestan for 2011–2014 with implementation of American equipment and technologies

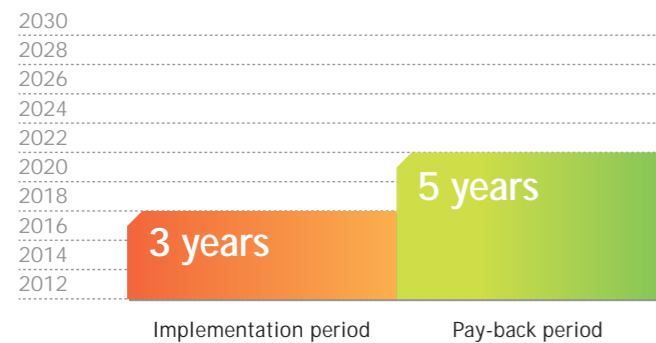

PROJECT COST: Total **19 600,0 mln RUB**
First stage **9 087,0 mln RUB**

PROJECT FINANCING SOURCES:

Own funds: 23 %
Raised funds: 77 %

PROJECT TERMS:

PROJECT DESCRIPTION:

The project stipulates the construction of a sugar mill with a capacity of 200 thousand tons per year and the development of agricultural produce processing. According to the project it is planned to construct a beet storage with a capacity of 1 million tons, a feed production plant with a capacity of 1 million tons of cattle, small cattle and chicken feed per year. In case of rotation, the land is to be used for wheat cultivation (200 thousand tons) and white wheat flour production (100 thousand tons). The rest of the land will be used to grow fodder corn – 200 thousand tons, rape, soy and sunflower (200 thousand tons each, for oil production). It is also planned to cultivate cabbage, carrot, onion, garlic, sweet pepper, potato. Besides, the project also includes the construction of cold storages allowing to save as much as 600 thousand tons of vegetables and the construction of canning plant for vegetable processing and storages if needed. According to the project it is planned to cultivate tomato and to construct (a 36–38o brix) tomato paste production plant with an annual capacity of 10–12 thousand tons.

PROJECT INITIATOR:

“Dagagrokompleks”, Ltd.

LOCATION:

Stepnaya village, Kizlyarsky district; A.-Nevskoe and Tarumovka villages, Tarumovsky district, Republic of Dagestan

MATURITY LEVEL:

- A project information memorandum is prepared.
- A business plan and a financial model are developed.
- Land plots in Kizlyarsky and Tarumovsky districts are purchased. The total area of land cultivated at the first stage is 16,8 thousand hectares.
- A protocol of intent is signed by the Government of the Republic of Dagestan and the “Amity Technology” LLC, a company providing 85% of project financing.
- In the Tarumovsky district greenhouses construction has begun with a purpose of vegetables cultivation.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 168 of 1 June 2011, the project has the status of a priority project of the Republic of Dagestan.
- In compliance with the Regulation of the RF Government No. 299-r of 3 March 2012 the RF loan guarantee is granted for the loan of the “Dagagrokompleks”, Ltd. in 2012.
- The meeting of the Operations Committee of the Sberbank of Russia is to be held in the 2012 second quarter to discuss the project financing.

Reconstruction and re-equipment of existing industrial livestock complexes and construction of the new complexes

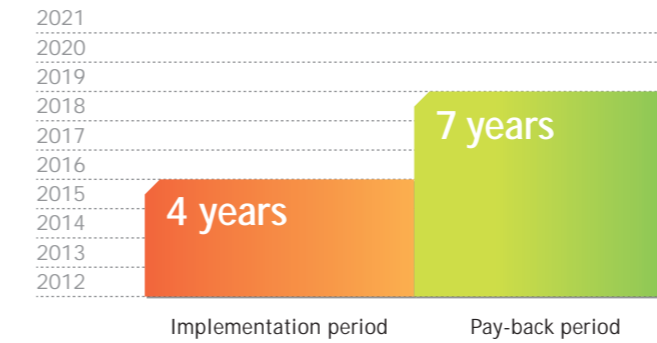

PROJECT COST: **4 285,6 mln RUB**

PROJECT FINANCING SOURCES:

Own funds: 20 %
Raised funds: 80 %

PROJECT TERMS:

PROJECT DESCRIPTION:

The project stipulates industrial livestock complexes construction on the territory of the Kizlyarsky, Tarumovsky and Babayurtovsky districts of the Republic of Dagestan for 10 thousand milk cattle in total, reconstruction and modernization of a milk processing plant in the city of Kizlyar with a capacity increase up to 200 tons/day and the meat processing plant capacity increase to 5 tons/day.

PROJECT INITIATOR:

“Kizlyaragrokompleks” Open Joint Stock Company

LOCATION:

Kizlyarsky, Tarumovsky, Babayurtovsky districts, Republic of Dagestan

MATURITY LEVEL:

- In accordance with the Regulation of the Republic of Dagestan No. 122 of 22 April 2011 state financial support is provided to develop plan.
- Meat and milk processing equipment with a capacity of 100 tons per shift is purchased.

MATURITY LEVEL:

- A meat processing department with a 5-ton daily capacity is put into operation.
- Livestock complexes are constructed and launched in the Chernyaevka village, with a cattle of 1,2 thousand heads, in the Nekrasovka village, with a cattle of 600 heads, in the Zadoevka village with a cattle of 500 heads.
- A land plot of 5,5 thousand hectares is purchased for tillage.
- The agreement with “Mara Tec. International” GmbH (Germany) for equipment supply and installation of a modern megafarm (the “BouMatic” company (USA) production) has been reached.
- A preliminary 35-hectare plot of land in the Chernyaevka village (Kizlyarsky district) is chosen for the construction of the second order of the livestock complex.
- A construction contract is concluded with the “Rosstroy”, Ltd. for livestock complexes construction in the Kizlyarsky, Tarumovsky and Babayurtovsky districts.
- The project has successfully passed the examination by the “Vnesheconombank” State Corporation.
- In compliance with the Executive Order of the Government of the Republic of Dagestan No. 492 of 30 December 2010, the project has the status of a priority project of the Republic of Dagestan.
